EKON

NEW EKJ SERIES

Professional UHF Wireless Systems

PROFESSIONAL PERFORMANCE, MAXIMUM FREEDOM

EIKON expands its range of UHF wireless systems with three compact and versatile solutions designed for those who seek audio quality, reliability, and practicality in an extremely portable format.

Ideal for musicians, performers, and audio professionals looking for maximum freedom and flexibility of use.

COMMON FEATURES

All models in the EKJ family share the same standards of quality and reliability:

- Quartz-controlled transmission for a stable connection
- New LCD display for quick menu access and preset channel selection
- Rechargeable lithium battery via supplied USB-C cable
- Up to 6 systems usable simultaneously
- Compact and lightweight design
- Stable and well-defined transmission

J&J

GUITAR AND INSTRUMENT SYSTEM

EKJ&J V2 - GUITAR AND INSTRUMENT SYSTEM

Designed specifically for musicians playing guitar and line-level instruments, the EKJ&J V2 system delivers stable transmission with no compromise in sound quality.

Technical Features:

SPECIFICHE	DETTAGLI
Operating range	Up to 30 meters
Battery life	4 hours
Available UHF bands	512-541 MHz, 863-865 MHz
Optimal use	Stage, studio, live performance

Advantages:

- Freedom of movement on stage and in the venue
- Transparent transmission dedicated to instruments
- Extended battery life for long working sessions
- Available in two frequency bands for maximum flexibility of use

EIKON

J&M

WIRELESS HANDHELD MICROPHONE

EKJ&M V2 - WIRELESS HANDHELD MICROPHONE

The ideal choice for vocals, presentations, and live applications. The handheld transmitter and compact receiver make operation immediate and intuitive, ensuring reliable performance in any context.

Technical Features:

SPECIFICHE	DETTAGLI
Operating range	Up to 30 meters
Battery life	5 hours
Transmitter	Handheld
Receiver	Compact
Applications	Vocals, presentations, live performances

Advantages:

- Extended battery life up to 5 hours
- Specifically designed for vocal applications
- Intuitive setup for presentations and performances
- 30-meter operating range for freedom of movement
- Ideal for events, conferences, and live performances

J&H

LIGHTWEIGHT WIRELESS
HEADSET

EKJ&H - LIGHTWEIGHT WIRELESS HEADSET

Designed for performers, presenters, and fitness instructors, EKJ&H combines practicality and performance in a lightweight and comfortable design, maintaining the signal quality and stability typical of EIKON systems.

Technical Features:

SPECIFICHE	DETTAGLI
Operating range	Up to 20 meters
Battery life	4 hours
Design	Lightweight and comfortable
Signal coverage	Up to 20 meters
Optimal use	Performances, presentations, fitness

Advantages:

- Ergonomic design for extended use
- Reliable coverage up to 20 meters
- Perfect for fitness instructors and performers
- Guaranteed EIKON quality in a headset format
- Extended battery life for long working sessions

THE THREE NEW EKJ MODELS

MODEL	RANGE	MAIN APPLICATION	BATTERY LIFE
